

March 2022

The Australian and South Australian governments have committed \$25 million for the design and construction of the Mike Turtur Bikeway Overpass Project.

The Mike Turtur Bikeway Overpass Project involves the construction of a Shared Use Path over the rail corridor at Goodwood to improve connectivity and safety for pedestrians and cyclists. The project will also provide safe, *Disability Discrimination Act 1992 (DDA)* compliant access to Goodwood Railway Station.

Project Update

Following the consultation already undertaken and further community feedback on the Mike Turtur Bikeway Overpass, construction will not start until further consultation is undertaken with the community. This consultation will include the establishment of a Community Liaison Group to ensure the views of the local community, and other likely users of the proposed overpass are better understood.

The Department for Infrastructure and Transport is committed to working with the community to deliver an overpass solution that will improve connectivity and safety for all users of the Mike Turtur Bikeway and the Goodwood Railway Station, whilst minimising local impacts in Forestville Reserve.

Expression of interest in joining the Community Liaison Group

A Community Liaison Group (CLG) will be established to ensure the views of the local community, and other users of the proposed overpass are better understood.

The purpose of this group is to create a forum for discussion and exchange of information about the project to assist the project team to understand local issues or concerns and identify possible solutions or mitigations. It is intended that this group will include representatives from the local community, bicycle users, local community / environmental groups, local businesses and local government representatives.

The Terms of Reference for the CLG are currently being finalised which will provide further detail around the role of the group and the criteria for membership. If you would like to register your interest in joining the CLG, please email the PTP Alliance at mtbo@ptpa.com.au. The Terms of Reference and the Expression of Interest form will then be sent to you once finalised. These documents will also be available on the project website.

Members of the CLG will be selected in accordance with the Terms of Reference to ensure that a cross section of local community and project stakeholders are represented for consultation.

Want to stay informed on the project?

If you would like to receive project information as it becomes available, please register your contact details via the website: www.ptpa.com.au/miketurturoverpass. If you would like to speak to the project team, please contact us on the details below.
