## OAKLANDS CROSSING GRADE SEPARATION

### WORKS NOTIFICATION

#### TEMPORARY CLOSURE OF PEDESTRIAN ROAD AND RAIL CROSSINGS, AND WESTERN ACCESS TO THE STATION

**25 JUNE TO AUGUST 2018**

**Beginning 25 June 2018**, the project team will start to construct a temporary road diversion on the eastern side of Morphett Road to allow bridge works to start. This will require changes to the way pedestrians access the station. These changes will be applied in stages.

From 25 June until the end of July 2018, the Morphett Road pedestrian crossing immediately south of the rail line will be closed. Two temporary pedestrian road crossings will be established approximately 60m to the south and 20m to the north of the rail line and will be in place from mid-July 2018 until new pathways and Marino Rocks Greenway are provided underneath Morphett Road upon completion of the project.

The pedestrian rail crossing immediately to the west of the station will also be closed for this period. Pedestrians will be able to access the platforms by using the rail crossing on the eastern side of the station, off Murray and Crozier terraces. Access to the city/north-bound train platform will remain open from the Morphett Road end.

Access to the western end of the Seaford-bound platform and the rail crossing immediately to the east of Morphett Road will be reopened again in mid to late July once the temporary road diversion is opened.

See plan overleaf for details of how to access the station and the Marino Rocks Greenway during this period. Please allow yourself extra time to access your required platform.
